VOLUME XX—NO. 94. CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, WEDNESDAY, SEPT 24, 1919 TWO CENTS

PAY DAY PASSED OFF VERY QUIETLY AT DONORA MILLS

No Disorder Marked the Day, Although There Was a Big Parade

MANAGER ADDRESSES THE MEN

All of the mills of the United States Steel Corporation at Donora paid their employes their September wages on Tuesday afternoon, anticipating t he usual payday by one week. In order to do this it was necessary for the clerical force to work overtime, but the task was accomplished in good time. The pay started about noon, and before evening every man on the roll had received his pay envelope. Those conversant with the situation said it was the quietest pay they had ever seen in and about the mills at that place.

District Manager Jewett of Pittsburg was present during the day, and when the men assembled at the wire mill for their pay he made an address. He assured the men that the steel company was not attempting to run the mill, only employing the necessary amount of labor to keep furnaces, steam lines and other important features in and about the plant in good shape, so that when the differences between the employers and employes were settled the mills would be in condition to begin operations at once. The address of Mr. Jewett was of the conciliatory spirit, and when he had concluded he was wildly c heered. This was the only demonstration on the part of the men, who, after receiving their pay, quietly dispersed.

The feature of the day was the parade of strikers from Monessen, which took place in the morning. The parade came unannounced and for a time, the circumstances caused a great deal of excitement. There was no disorder however, the Monessen men returning home before noon.

An incident which occurred about this time gave the officials some fear that an attempt might be to attack the mill. The steamer Braddock had landed at the dock of the American Steel and Wire company to unload supplies for the foremen and other workmen who will be required in the mill to keep the plant in shape. The marchers coming down from Monessen saw t he boat unloading and surmised t hat the supplies were for the benefit of strikebreakers For a time the demonstration of the strikers, although on the opposite side of the river from the plant, caused the mill officials some f ear. Later however when Mr. Jewett explained the situation his word was accepted and everything passed off peafecully.

This morning there were no assemblages of men at any of the steed mill entrancess. Notices have been posted in Donora by Sheriff Wickerham calling attention to the law and that it will be enforced if necessary.

NEW EAGLE TO WELCOME SERVICE MEN

The borough of New Eagle is preparing to celebrate in honor of its returned service men, the event to take place next Saturday afternoon. Quite a program has been arranged by the citizens of the borough, under direction of the Burgess, and the people propose to give the guests of honor a genuine home-coming welcome. One of the events of the afternoon will be a barbecue which is expected to be one of the enjoyable features of the occasion.

PROMPT ACTION OF MONESSEN BURGESS

Burgess Stewart of Monessen has issued a proclamation putting a ban on all parades and mass meetings, directing all clubs to close and prohibiting the sale of all intoxicants This move is taken as a precautionary measure, that no disturbance may mar the peace of that community during the duration of the strike.

Tuesday evening 2,000 citizens of the borough assembled at t he High School building and organized a Home Protective League. More than one thousand people could not gain admittance to the meeting with which they were in full sympathy.

After the League had been organized 1,500 special policemen were sworn in, and this morning 500 additional men were added to this force Many of these special officers are returned service men, who will be armed and wearing their uniform will do patrol duty. All of the officers are wearing printed badges for the time being until others of a more durable nature can be provided. Some few of the officers will be paid, because they will be on duty continually, but all of them will hold themselves in readiness for instant service.

The League members will be in command of an officer of the Rainbow Division.

NEW AMERICAN RESTAURANT

Open for business at 523 McKean avenue. Only American Restaurant i n town. Table and counter service. Everything clean and neat and our kitchen is open for inspection at any time. We invite you to call in and see it. Piper and Buchanan, proprietors. 94-t3-*

Notice.

A meeting of Charleroi Civic League will be held Friday evening September 26, at 8 o'clock in Masonic Banquet Hall, corner Fifth Street, and McKean avenue. You are earnestly requested to attend. Important business will be brought before the organization.

By order of Chairman.

Returns From Primaries Show No Change in Nominations

The return board of the election for the September primaries on Tuesday afternoon, completed the canvass of the votes cast for the county offices on all tickets and made the return to the county commissioners. The board carefully canvassed the vote and in some instances opened ballot boxes where marked discrepancies were shown by the return sheets. Numerous instances of gross carelessness were found on the part of election boards, but no particular evidence of criminality was shown. The figures from the voteof the 16th show the following results:

Superior Court Judge

Keller	12,153

Orphans' Court Judge

Hughes	5,427
Baker	4,446
Linn	3,142
Clark	3,832

Hughes over Clark—1,595.

Baker over Clark—614.

Common Pleas Judge

Brownson	13,240

County Commissioners

Johnson	7,710
Leutitt	4,333
Robison	2,132
Walker	6,434
Watson	4,651

LOCAL FOOTBALL SEASON OPENS SATURDAY WITH CONNELLSVILLE

TRAIN HITS TRUCK IN NORTH CHARLEROI

A delivery truck owned by H. C. Sutman & Co., of Monongahela, and driven by Earl Weygandt, was sideswiped by the Fairmont flyer a short distance above the Lock Four station about 9:30 this morning. The side of the car was badly damaged, and the pies, cakes and bread with which the machine was loaded were scattered along the track. The driver escaped uninjured. The machine was able to return to Monongahela under its own power.

DARING HOLD-UP ON PUBLIC ROAD

Two foreigners, Melo Marianovich and Kosti Pikovich of Monessen, who were on their way to Pittsburg last Monday afternoon, were held up and robbed of large sums of money, Marianovich losing $2,280 and Pikovich locing $2,340. The two men were in a machine with Demitri Marianovich a distant relative of one of the victims and George Knozovich.

The quartet was on the way to Pittsburg, from where Marinaovich and Pikovich expected to leave for New York and from w hich port they expected to sail for their native land. When opposite Monongahela, near the Dale farm on top of the hill and just as the auto was passing a clump of bushes, two masked men stepped out and held them up. They robbed the two men of the sums noted above while Demitri Marianovics lost $20 and Knozovich $10.

After the robbery Demitri Marianovich, who was acting as chauffeur drove the car as far as the power house of the Pittsburg Coal company back of Bunola, where something went wrong with the machine and it had to be abandoned. From that point the victims had to walk quite a distance to a telephone and it was several hours before the State police were notified.

They are making a thorough investigation and expect to land the robbers. Before leaving Monessen the two men were lavishly entertained by friends and it is presumed that some of their acquaintances may know something of the hold-up.

NEW CLARK PICTURE AT COYLE FRIDAY

Marguerite Clark, known as "the sweetest girl in motion pictures" has scored another decisive hit in her new Paramount play "Let's Elope," which will be shown at the Coyle Theatre Friday. Miss Clark has a charming role in the picture and her gowns are remarkable creations. The picture is warmly commended by all who see it.

The Kensington Club of the Lutheran church will meet at the home of Mrs. Schempp, 618 McKean avenue Thursday afternoon. 93-t2

"Coketown" Players Say They Will Clean up on Charleroi

LOCALS HAVE DIFFERENT VIEW

The football season for 1919 will be inaugurated in Charleroi on Saturday afternoon next, when the local High School team will meet the strong team from the Connelisville High. The game will be played at the local ball park, and the "kick-off" is scheduled for 3:00 o'clock.

From present indications the game is to be a "hummer," full of action and a fight for supremacy from start to finish. Judging from reports that have been emanating from "Kaketown" the Connellsville team expects to romp away with the game, but the locals are viewing the contest from a different angle. The Charleroi team has been in hard practice since the opening of school, and with many of the last year's team in line will give the visitors a real contest.

However, there is one thing the local team is asking, and that is, the support of the citizens of this community. Real genuine support on the part of the people of the home town will have a great influence on the outcome of the game. The people of Charleroi should be proud of the athletic achievements of the High School in the past, and to show their appreciatioon of what the athletes have done, and what they hope to do, should encourage the management and the players by a generous attendance. A hard schedule has been arranged for this year, and it is essential that in order to be successful the local team should have the generous support of the people of Charleroi.

The management is preparing to handle a large crowd at the opening game, and is hoping that expectations will not be disappointed. The admission fee has been fixed at 25 and 50 cents, and the contest will be worth the money. The kickoff will take place promptly at the hour advertised, and the game will be worth witnessing.

BRIDGE IS OPEN OVER TAYLOR'S RUN

The township bridge over Taylor's run, the construction of which has held up traffic on the brick road between Charleroi and Monongahela, is now open to traffic, much to the relief of automobile drivers. While this bridge was being rebuilt it was necessary to make a detour around by Hazel Kirk and up over the hill, w hich was very annoying but with the completion of the structure this will be done away with. The new bridge makes that point much safer for automobiles.

THE DIFFERENCE

King Albert of Belgium declined to accept passage on the transport George Washington if by doing so he would interfere in any way with the homecoming of American soldiers Mr. Wilson of course, did not hesitate to give the same vessed the status of a private yacht and keep it idle and at his personal call for months while weary homesick troops were being herded at Brest because there were no ships available to carry them to this country. But Mr. Wilson is president of the American republic and must be allowed a little imperialistic state: whereas Albert is only a king and is expected to be democratic—Detroit Free Press.

A POPULAR STRIKE

The workers in the arsenals in Japan have gone on strike. If those working in German arsenals had struck along about 1910 and stayed struck, it would have saved the world untold agony, loss and suffering. That is one kind of strike that ought to make a hit with everybody excepting war lords.

PEAK IS COMING

The good news comes that manufacturers are in a position to predict that the peak in the cost of clothing will be reached next spring and that the decline will then begin. No relief is promised in the meantime but it is encouraging to be informed that the peak is in sight.

HARD WINTER COMING

Russians don't show good sense. One would think that the cold wind from the Pole blowing through their Bolshevik adornment would serve warning that there impends the hardest winter the Great Bear of the North has ever known.

The territory near the Bug River, Poland, is the most desolate region in the world, according the Jewish Relief Workers. Only two forms of life are to be seen; the forlorn hordes of refugees who stream along the barron bone strewn roads and the carrion crows that wheel significantly above their wanderers' highway.

The six-hour day advocates are slowly coming to the point where they will desire to work only during their annual vacations. We are getting ready for the time in America when loafing will mark the daily routine and labor our occasional diversion and recreation.

Maxims are hardly ever true. For instance, the one about children and fools always telling the truth. Many children never tell the truth if they can avoid it and a fool lots of times will lie when the truth would serve him better.

It must be pretty hard for the faithful wife with a husband that she nurses through one love affair only to find him involved in another. That kind of husband hardly ever stays cured.

The reason dishonesty attracts so much more attention than honesty is because it is so much scarcer. You wouldn't look twice at a flock of blackbirds but you'd look a long time at a white blackbird.

But one good thing you can say for [illegible] is that generally it doesn't [illegible] much foam on it as regular [illegible] and that while it contains no [illegible] does it contain any weeds.

[illegible] gentleman is one who de[illegible] a false something he knows [illegible] by so doing he can help another.

If you go to church on Sunday and to the devil the rest of the week, which do you suppose, will be winner in the hereafter?

You may take no thought of the morrow but you're pretty likely to find the morrow taking thought of you.

DONORA REPORTS THAT ALL IS QUIET

Conditions in Donora today are reported as being very peaceful, no crowds congregating on the streets, and no indication of a strike, except the fact that the mills are not running. By some of the residents of that borough it is expected that the mills are down for a long period as indications point that way.

You may not get away from the high cost business after you leave this world if you intend to go to a "higher sphere."

An automobile is something like a man. When it travels too fast it becomes heated and doesn't get anywhere until it cools off.

When a man says, "Now you understand there is nothing in this for me." there is.

If you can't be happy unless you are doing something exciting, its a sure thing you are not very exciting.

You may gain a day's success by means of a pull and then you'll be pushed off

The well springs of joy are in the fountain of youth.

Notice of Dissolution.

Watches and Men.

Watches [illegible] a watch partakes of the [illegible] of the one who carries it. If the owner is steady, even-tempered, [illegible] and never "flies off the handle," a watch [illegible] is sure to be the most proper timer. If a owner is a gentle [illegible] erratic, irritable person, [illegible] the watch [illegible] of the [illegible] or else will not [illegible]. Watch repairers look with considerable suspicion on men whose watches always need regulation. The man whose watch is always right "just by the clock" is pretty sure to be one who keeps regular hours, indulges in no excesses, conducts everything in a methodical manner and consequently does good work and enjoys good health.

Electric Wire "Don'ts."

Some safety hints for the wise, which are intended to guard against serious accidents and a possible loss of life, are being sent out broadcast by the electric light companies. From them, observes Popular Science Monthly, may be selected the following: Do not cover an electric globe with paper or cloth. It may start a fire. Do not hang an ordinary lamp cord over a nail or metal work. Do not leave a cord connected when you are through with it. Do not touch any wire that is down on the ground, whether it is an electric, telephone or guy wire. In an emergency, remove a wire with an instrument equipped with a wooden handle, keeping the full length of the handle between yourself and the wire.

Flower Tones.

We hear more and more about the form and color of musical sounds and tone combinations. First thing you know we will all be seeing music instead of hearing it, and the critics will be writing about Winkemfunk's symphony in blue and Flingemosky's purple sonatas, says the Los Angeles Times. Great pianists will hurl mountains of floral beauty at their audiences, and the master violinist will waft sweet lilies and lilacs of sound across the footlights. Birds will cease to warble and will start to painting. The skylark's note will become a cord of gold connecting earth and heaven and the poet will refer to the mocking-bird's medley as an exquisite rainbow of song.

Qualities That Are Divine.

"Men are the sport of circumstances," said Byron. Bayard Taylor expressed the same idea when he said: Men's lives are chains of chances." But it is well for humanity that this element of chance, as we call it for want of a better name, enters into everything. We sometimes grieve and chafe because we can't understand things that are beyond us; we think we would like to be able to look into the future and to perceive the results of all causes and the reasons for all things. But that would call for qualities that are divine, and we are not [illegible] far enough to possess or appreciate such qualities. Our education is still too incomplete.—Pathfinder.

Where Newspapers Are Useful.

It has been my experience, observes a correspondent, that the newspaper has innumerable uses—for instance: If one will cover the slide under the burners of a gas stove with a newspaper, it will not catch fire and the work of changing it every morning is nothing in comparison to washing the slide. A newspaper on top of the stove always gives a clean place to warm dishes when the oven is in use, and will last a long time before finally scorching a little. The garbage pail lined with newspaper keeps the pail sweet and clean. Placed under the rugs, newspapers will lengthen the life of the carpet.

Never Give Up.

Not one of us can tell what is in us until we are confronted with a real test, but if we have formed the unwise habit of thinking that we cannot do this or cannot do that we can hardly hope to make much of a showing in case we are suddenly called upon. Believe in yourself, cautions a sage, and no matter what happens, don't give up. The person who stands his or her ground unflinchingly—who has faith in himself or herself, may for a while experience pretty rough going, but such a man or woman is destined for brighter and better things, and always comes out a winner.

Won Victoria Crosses.

The first Victoria Cross in the Crimean war was given to a sailor, who afterward rose to be a rear admiral. Commander C. D. Lucas, who when a shell, sizzling but unexploded, fell on the deck, picked it up with his hands and cast it into the sea. The tossing overboard of the shell undoubtedly saved the British flagship. At the battle of Jutland, when the fleets of Germany and Great Britain met for the first time in combat, a British bluejacket picked up an unexploded shell and tossed it overboard, saved his ship and won the Victoria Cross.

Food Value of the Peanut.

The peanut is a substantial food, according to the Confectioners' Gazette, 3 ounces of shelled peanuts being said to possess a food value of 2.3 ounces of round steak, 3 ounces codfish, 1 ounce rice, 4.2 ounces rye bread, 35.5 ounces spinach, 5.6 ounces apples, or 3 ounces bacon. The peanut is rich in fat, and also has mineral salts important in the diet, such as phosphorus lime, sulphur and iron.

CAMPAIGN GOAL IS ALMOST REACHED

Elks' Teams attention! four-fifths of the journey accomplished!

From reports at hand up at last night, $4,000.00 has been subscribed towards the Salvation Army Campaign in Charleroi. A little extra effort on the part of all concerned will, we feel assured, put Charleroi as ever "Over The Top" in this most worthy c ampaign. A long pull a strong pull and a pull all together and the goal $5,000.00 will be reached.

To Brother Elks:—

We have just three more days to complete our work on the Salvation Army Home Service drive and many of the homes in Charleroi have not been solicited. Will all team Captains and Workers make every possible effort to see that no one may be missed in their respective districts. We are satisfied that our people stand ready to assist this wonderful organization in this great work, but in order to reach our goal we must concentrate all our efforts to the task in hand.

Thos. H. Warrensford, Chairman.

This store will be closed all day Thursday and Friday September 25 and 26. Will open Saturday morning with extraordinary values in ladies coats, suits, dresses and millinery. It will pay you to wait. Waynes Quality Store, 433 McKean avenue. 9442

MARRIAGE OF FORMER CHARLEROI GIRL

The wedding of Miss Sue Beigel, daughter of Mr. and Mrs. Louis Beigel of Stratford avenue, Pittsburg formerly of Charleroi and Louis Mendel of Columbus, Ohio took place Sunday afternoon at the Rittenhouse in Pittsburg The bride was attended by her sister Miss Clara Beigel as maid of honor and two small cousins Misses Louise and Lois Greenberg of Charleroi as flower girls. She was given in marriage by her father. A brother of the bride Simon Beigel, served as best man. The ceremony was performed at 5 o'clock by Rev. Dr. S. H. Goldenson of the Rodeph Shalom Temple following which a wedding dinner was served. Among t hose in attendance were Mr. and Mrs. Nathan Greenberg and daughters and Mr. and Mrs. Louis Greenberg and daughters of Charleroi. Following a western trip the couple will reside in Columbus, Ohio.

ARE PLANNING FOR RALLY DAY

This is "Children's Week" in the program of the International Sunday School Association, and the workers of the Charleroi district are planning two visiting days before "Rally Day," which is Sunday, September 28. On Thursday and Friday afternoons beginning at 4 o'clock. the Sunday school teachers plan a simultaneous canvass of the city in the interest of the work.

One of the after-effects of the war is p lainly seen in the increase in child delinquency, and the plan of the Sunday school workers to counteract that tendency is one of the hopeful signs of the times.

STRIKES DOES NOT AFFECT COAL OUTPUT

The amount of coal received at the Clairton docks on Monday would indicate that no shortage will exist in the production of bitumen. All of the steamers of the Carnegie line are busy towing coal from the upper pools, and even if there should be a decrease in mill activities, the coal will be stored in the various yards.

IN THE CLASSIFIED COLUMN

MINERS ASK FOR WAGE INCREASE

Demands for a 60 per cent increase in all mine wages, a limit of six hours upon the day's labor underground, a five day week with time and a half for overtime and double time for work on Sunday and holidays, and important improvements in conditions of labor were adopted at the convention of the United Mine Workers of America at Cleveland on Tuesday. The convention has adjourned to await the result of thejoint conference of the wage scale committee at Buffalo on Thursday. Should a new agreement be reached by operators and miners it will be referred to a convention to meet at Indianapolis to accept or reject. If there should be no agreement between miners and operators a strike will be called for the first of November.

WILL SOON COMPLETE BIG RETAINING WALL

The big retaining wall which is being built by the Carnegie Steel company along the Monongahela river in front of its Clairton plant, will be completed before the end of the present year. The new addition to the one already built will be 1,300 feet long.

NEW BOAT READY LATE IN OCTOBER

Rapid strides are being made on the new steamer H. G. Williams for the Carnegie Steel company, which will be added to the fleet the latter part of next month. The steamer has been named in honor of the president of the Carnegie Steel company.

MISSES ORANGE ENTERTAIN YOUNG LADIES CIRCLE

The Young Ladies Circle of the First Presbyterian church were entertained on Tuesday evening September 23 at the home of Misses Lela and Mabel Orange on Third street. Lunch was served by the hostess.

Sloppiness is not genius and foppishness is not brains but both "get by" pretty often until their hands are called.

NO STRIKE OF MINERS TO AID THE STEEL MEN

At the Monday session of the United Mine Workers now being held in Cleveland, a resolution was adopted to extend sympathy and support to the striking steel workers, but only by such measures as can "legally" be employed beween the unions and operators, the committee thereby disposing of the proposal introduced last Saturday to call strikers in aid of the steel men wherever coal mined was to the detriment of steel men.

Rev. John R. Burson, pastor of the Washington Avenue Presbyterian church, will be one of the speakers at the convention of the Fayette County Sabbath School Association which meets in Uniontown on Thursday and Friday of this week. Rev. Burson is on the program for Thursday afternoon and his theme will be "The Trained Teacher."

NEW MOVEMENT IN EPISCOPAL CHURCH

A great movement for enlightening the mind and awakening the conscience is under way in the Episcopal Church. This c hurch with its million communicants in the United States is preparing to take its place in the great work of re-construction. A party of seven from Charleroi attended a dinner of 1300 church people in Pittsburg on Monday night, and heard among others Mr. Lewis Franklin of New York who was in charge under Mr. McAdoo of all the organization for selling the various War Loans. He has now placed his services at the disposal of his Church to head the present campaign.

The Charleroi church, St. Mary's, has been busy for some time repairing its property, and next Sunday it will celebrate the 21st anniversary of the opening of the church with a special musical service and the dedication of an organ presented by D. M. McCloskey.

Women seem to find about the same amount of pathos in weddings and funerals.

"The ox kneweth his master," which is more than a conceited man knows.

THEY THOUGHT SHE WOULD SURELY DIE

"My cure was so wonderful that I feel I owe a debt of gratitude to Plant Juice that I never can repay," said Mrs. Alice Wilson, who resides at No. 137 Fortieth street, Pittsburg, in a recent interview. Continuing, she said:

MRS ALICE WILSON

"I had been ill for the past 18 years at times I was so bad that no one thought I would live. I was treated for catarrh of the stomach, but nothing seemed to help me. I would have fainting spells and fall down anywhere and remain unconscious for hours at a time. At times my mind was a blank for days. My circulation would stop and my hands and feet would become cold and clammy. My food would not digest in my stomach and I was obliged to eat liquids. I lost in weight being reduced from 196 to 138 pounds. My friends all predicted that I would not live six months. A friend of my husband's recommended Plant Juice to him and he purchased a bottle for me. After taking about one-half of the bottle I got relief. I have been using Plant Juice now for some time and I am glad to state for publication that I have entirely regained my health and am entirely cured. I can eat any kind of food and digest it perfectly; I do not have any more aches or pains and do not have any more fainting spells. I am now doing all of my housework for the first time in many years. At the present time I weigh 165 pounds. I can recommend Plant Juice for what it has done for me, and I know it will help all sufferers of stomach and nervous disorders if they will try it. My husband and myself are both truly grateful to your medicine for restoring me to health."

Plant Juice is sold in Charleroi at Henning's Drug Store.

WANT TO GATHER ROOTS AND HERBS

For medicinal purposes, roots and herbs should be gathered when their medicinal properties are at their best. For instance, roots of annual plants should be dug just before their flowering season and roots of biennial or perennial plants after the tops have dried. All these things are taken into consideration in gathering the roots and herbs, many tons of which are used annually in preparing that most successful of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound.

"What fools these mortals be!" That is, all of them except yourself.

ADOPT NAME OF CHARLEROI POST

Last evening in the public meeting room of the Municipal Building the American Legion held an enthusiastic and well attended meeting. The surrounding districts were not as well represented as usual but the local attendance was large.

The local Post which has been operating without a name other than Post No. 22 adopted the name of Charleroi Post after considerable discussion It was thought in after years the Post would be better designated by giving it the name of the locality in which it is situated

Earl Wagner and Edwin Patton were elected as delegates to represent the Charleroi Post at the State Cantonment in Harrisburg October 2nd, 3rd and 4th

It was voted to hold a Legion dance in the near future and a committee was elected to have charge of this feature.

The following additional officers were elected:

War Risk Insurance and Allotment Officer, Dr. H. J. Repman, Post Employment Officer, George H. Hott and Color Bearer, William Ludwig.

The campaign for new members showed its results last evening when many new members were enrolled. Although the campaign officially closed last evening, the success the Legion has met with in securing members is so encouraging to the Post that they are going to continue the drive and hope to secure every returned soldier, sailor and marine in this district before the winter is over.

Apparently the only way to decrease the number of divorces is to decrease the number of marriages.

It may be "social" unrest but it's not a sociable unrest.

VICE CHARGED TO MOSQUITO

Natives of Tropics Can't Be Moral, Is Argument Made by Some Missionaries.

"Those who complain of mosquitoes here ought to be thankful that conditions here are not the same as in Central America," a returned missionary said. "As soon as a man sets foot in the wilds down there he is introduced to an insatiable pest mosquito and clings to him in his sleeping hours, testing all his powers of endurance and leaving him so thoroughly tired that many a missionary assumes the appearance of one who has barely emerged from the throes of some deadly and pernicious disease."

In the annual report of the American Bible society, which is now being prepared for publication, many Bible distributors testify to the suffering caused by contact with mosquitoes in the hot belt countries. The insect, not heathenism, is the missionaries' worst enemy. Even the natives are engaged in constant battle with the pests. They prevent sleep, they infect the food, they carry in their trail microbes and germs of destruction.

Many missionaries believe that the mosquito is actually responsible for the vicious and deceptive traits of character which prevail among the natives. They can't possibly be happy or moral under the continued assault of such an enemy to physical comfort, it is argued.

HAVE MANY FINE QUALITIES

Italian Cattle, It Is Thought, Might With Profit Be Imported Into the United States.

The white cattle which predominate in northern Italy are of the Piedmont breed, and are particularly suitable as work animals. A yoke of these oxen of large size weigh 3,520 to 4,400 pounds. The weight of a fine white cow of the Piedmont breed is 1,210 to 1,540 pounds. Steers attain about 1,980 pounds. The Piedmont bull reaches about 2,200 to 2,420 pounds.

Another breed of white cattle is also found in Italy known as Roman. This breed, however, is not, properly speaking, of northern Italian origin, but comes from the neighborhood of Rome, in central Italy. The oxen of this breed are also particularly adapted as work animals, but are not so good for slaughter, their meat being not of such fine quality as that of the Piedmont variety.

There is also a breed of pure white cattle in Italy, known as Chianina. These cattle are of enormous size and weight, less adapted to work, but are for slaughter. There are oxen of the Chianina breed weighing from 3,360 to 3,520 pounds each.

It is the opinion of breeders and dairymen in this district that none of the above breeds of cattle have been exported to North America. There are many breeders in Italy of the several classes of white cattle, but there are none who raise them especially for export.

First United States Treasurer.

Alexander Hamilton was the first secretary of the treasury (1789-95). Michael Hillegas was the first United States treasurer. Hillegas was appointed to the office July 29, 1775, when he and George Clymer were chosen together in the formation of what was the germ of the treasury department. Hillegas served alone through practically his entire term, however, as Clymer soon resigned to take a seat as delegate to congress. Hillegas' term expired September 11, 1789, and he was succeeded by Samuel Meredith. Both men were from Pennsylvania. The treasury department was formally organized by act of September 2, 1789, but, strictly speaking, this was merely a reorganization, for the department under various names had been in existence since 1775.

Fun in the Class.

The late Professor Key, when headmaster of a large London school, was one of the most genial gentlemen that ever filled that position. He was fond of encouraging fun in his boys, and was not averse to recounting occasionally during class time, when anything prompted it, the manners and customs of countries he had visited. On one occasion he was telling his class about Spain, and said:

"Do you know, boys, that when a man attains to eminence there he is not called 'sir,' but is given the title of 'don?'"

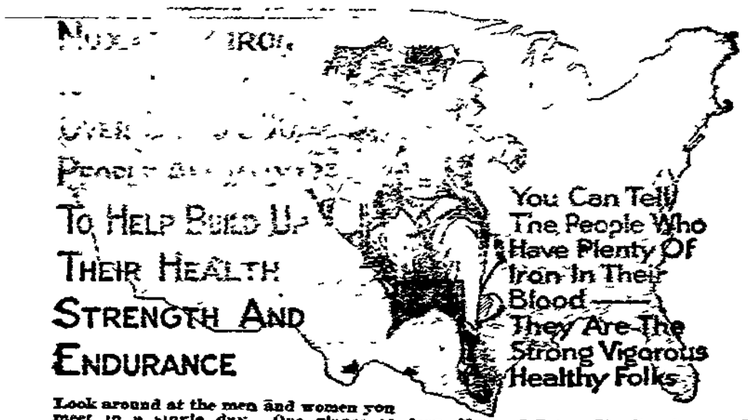
One of the boys here called out:

"Then, I suppose, sir, they would call you Don-Key?"

The gravity of the class was completely upset for the remainder of the afternoon.

Invention of Photography.

The earliest experiments in the direction of photography were made by Wedgewood and Day, but the first photograph was actually produced in a camera made by Daguerre and a partner about 1839. In 1840 the first photograph-portrait was made by Professor John W. Draper, an American. Progress was made in the work for Fox Talbot, 1841, and Scott Archer, 1851, with the glass plate. The gelatine-bromide dry plate was invented in 1871 by Maddox, and greatly improved by Bennett in 1878. As in many other inventions, it is practically impossible to lay one's finger on one man and one date for the specific "invention" of photography; it has been so largely a process of experiment and improvement.



Look around at the men and women you meet in a single day. One glance is enough to tell the ones with plenty of rich, red blood, strength and physical energy to back up their mental power and make them a success in whatever they undertake.

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, says that to help make strong, keen, red-blooded Americans there is nothing so valuable as organic iron—Nuxated Iron. It often increased the strength and endurance of weak, nervous, run-down people in two weeks' time. It is conservatively estimated that Nuxated Iron is now being used by over three million people annually, and it has been used and endorsed by such men as U. S. Commissioner of Immigration Hon. Anthony Caminetti, also United States Judge G. W. Atkinson, of the Court of Claims of Washington, and others. Nuxated Iron is dispensed by all good druggists everywhere.

Sold in this city by Piper's Pharmacy and all good druggists.
